

How Discounts Work in Bookbear: To keep booking simple, there is one flat price per session and up to 15% in discounts is available. Instead of a price drop at checkout, discounts are credited back to your Wallet as "Play Time Coins" after the sessions are completed.

These discounts are automatically added in the Bookbear system after the relevant session are completed. Discounts are credited back to your Wallet as "Play Time Coin" after the sessions are completed.

No processing fees apply for Instant Bank transfers through supported banks. Paying by card without a supported bank incurs a 2.5% + .30c processing fee.

Full Week Booking (5% Reward): Book a full week (**Mon-Fri**), receive 5% credit at the end of that week.

Sibling Discount (5% Reward): Book any siblings together for **3 or more days per week**, and get 5% credit at the end of each week. No need to book at exactly the same time for the exact same booking for the full term - the system will detect if siblings are booked together for 3 or more days per week and apply the discount.

Regular Term Booking (5% Reward): Book the same day for the **entire term** (for example, every Tuesday in the Term), and receive 5% credit at the end of the term.

The system will also detect the reverse ie. if a booking is removed, and it will alert if you will lose Rewards.

All earned Play Time Coins are automatically deposited into your Wallet, ready to use for your next booking!
